

What Makes You Comfortable?

Cool air on a hot summer day...

A warm cozy night at home with the snow falling outside...

Feeling secure about the parts and service sustaining your environment...

GRAND*AIRE* *Heating & Cooling Products*

13 SEER Air Conditioners & Heat Pumps

Home Comfort and What It Means To You

Home comfort depends on many variables. Qualifications may include the sun's exposure on your home, the area of the country in which you are located, how many floors you must heat and cool, square footage and the materials used to construct your home. Let us not forget your own personal comfort choices as they relate to temperature.

Affordable and Efficient = Savings

- Compressor—10 year
- Parts—5/10 year*
- Assurance Replacement—1 year**

GRANDAIRE has developed a full line of heat pumps and air conditioners to allow you to maintain comfort year round.

Concerned about how your choice will impact the environment?

No need to be concerned over environmental issues that arise from many heating and cooling units. The air conditioner and heat pump are offered with chlorine-free, R-410A refrigerant. These units are built to last and have little impact on the Earth's ozone layer. These models incorporate the EPA-approved and industry accepted R-410A refrigerant, the environmentally friendly alternative to R-22.

An Energy efficient heating and cooling machine...what more could you ask for?

What Are Your Comfort Needs?

When contemplating a new heating and cooling system for your home, there are some key points you should ask yourself:

Reliability of new equipment?

Is there even temperature in my home?

How long will I live in this home?

What temperature do you set your thermostat during the Summer? _____ Winter? _____

What are you most looking forward to with a new system?

GRAND AIRE

Heating & Cooling Products

Limited Warranties

*Parts Limited Warranty: Standard parts warranty is 5 years. The original purchaser/homeowner may receive an additional 5-year parts warranty by timely registering their product online at www.icpusa.com/productregistration, or by completing and mailing the product registration form included with the unit. Registration must be completed within 90 days of installation to qualify. This additional warranty applies to the original purchaser, only for owner-occupied dwellings, and is not transferable. Some restrictions apply. See warranty certificate for complete details.

** 1-year Assurance Replacement Limited Warranty: If the compressor, refrigerant coil or heat exchanger fails due to defect within the first year from the date of original installation of the product, Grandaire will, one time only, provide a comparable replacement unit. This warranty applies only to the original purchaser, only for owner-occupied dwellings, and is not transferable. This warranty is a supplement to the standard product limited warranty. Some restrictions apply. See warranty certificate for complete details.
